

1 Billion Africa & Agenda 2063

The Africa We Want

*In May 2013, at the 50th Anniversary of the Organization for African Unity, African Union Heads of State and Heads of Government made a solemn declaration to advance the continent through a 50 Year Agenda to realize the vision of; **an integrated, prosperous and peaceful Africa, driven by its own citizens and representing a dynamic force in the global arena.***

Here are ways 1BA is contributing to realizing Agenda 2063;

Youth Skills Development

Our projects engage youth volunteers who discover hidden abilities and get opportunities to develop their full potentials. This shapes them into future leaders. Most of our projects lead to direct human capital development, and our Health and Women Empowerment projects focus on empowering girls to realize their full potentials whilst meeting some health needs.

Community Development

Our community based projects help to address key challenges in deprived communities in areas of Education, Leadership, Agriculture, Technology, Health and Environment.

Peace Building

Our project, advocacy and support services gather Africans from various ethnic backgrounds who come together to work with a common goal of turning a problem into a project. This promotes Unity and Cultural heritage. Values and ethics are also strengthened in the process.

1BA believes in a United Africa and the passion of Pan-Africanism is instilled and inspired in all stakeholders.
